

APS-MCC ENHANCED MCC

OVERVIEW

APS-MCC is a complete course designed to train pilots to be proficient in multi-crew cooperation (MCC) to operate safely multi-pilot, multi-engine airplanes under IFR. The total duration of the course (theoretical and practical) is 2 weeks.

PRE-ENTRY REQUIREMENTS

- Pilot License with valid IR/SP/ME

THE THEORETICAL TRAINING

The theoretical training consists of all instruction given by the MCC instructor and includes lectures, tutorials, and long briefings. The MCC instructor endeavors each classroom lecture as interactive as possible by using a role-play for both the instructor and students. The theoretical material is illustrated by means of examples which can and do occur in normal line flight operations. The theoretical training is conducted in suitable, well-equipped classrooms and its duration is 25 hours.

THE SYNTHETIC FLIGHT TRAINING

The practical training comprises of 40 hours FNTP II synthetic flight instruction. The practical training sessions are conducted in 2 hours flying time as Pilot Flying (PF) and 2 hours flying time as Pilot Monitoring (PM), whereby the time as PF is completed from the right seat, as in the commercial aviation starts as a First Officer (FO) position. With this way, the student will acquire the needed experience for a possible follow-up type rating. The purpose of this course is to ensure that when operating in a multi-crew environment, the Pilot in Command (PIC) will fulfil management and decision-making functions irrespective of being PF or Pilot non-Flying (PNF). Tasks like handling and controlling an airplane from the PF are clearly specified in the course structure. More to that, co-operation is affected in an orderly way, as well as mutual supervision, information and support between crew members are always carried out.

COST ANALYSIS OF THE COURSE

Type of Service		Training hrs	Duration	Installment Payment Plan (for minimum hrs)
APS-MCC Theoretical Training	Classroom	25 hrs	4 days	✈ € 6,000 will be paid before MCC begins
APS-MCC Practical Training	FNTP II-MCC	40 hrs	10 days	
				€ 6,000

*Uniform cost is not included in the above offer.
