ATP MODULAR THEORY

OVERVIEW

ATP (A) Modular Theory Distance Learning is the theoretical training for the ATP completed with distance learning training. The minimum duration of the course is 3 months but it may vary depending on the student's personal schedule. Before completing the course, the student will attend a number of residential brush-up lectures held in our facilities.

PRE-ENTRY REQUIREMENTS

- Private Pilot License (PPL)

THE THEORETICAL TRAINING

The ATP distance learning theoretical knowledge course comprises Computer Based Training (CBT), approved interactive video training, slide presentation, progress tests, sample exams and brush-up lectures for the final examinations. The student may also optionally purchase the hard copy Training Manuals (Books) for the 13 subjects. The 13 subjects are: (010) Air Law, (021) Aircraft General Knowledge, (022) Instruments & Electronics, (031) Flight Performance and Planning - Mass and Balance, (032) Performance, (033) Flight Planning & Monitoring, (040) Human Performance & Limitations, (050) Meteorology, (061) General Navigation, (062) Radio Navigation, (070) Operational Procedures, (081) Principles of Flight, (090) Communications.

ATP MODULAR THEORY
